

We are reaching out to community members and organizations like yours to ask for **support for an exciting project we are working on—building a Gaga Ball Pit for the Lake Nebagamon Community!**

We decided to build a Ga Ga Ball Pit for our community because it helps people connect and become friends. Playing Ga Ga Ball is great exercise and it gets you outside. Ga Ga Ball is an activity that anybody can play and have a ton of fun.

This Ga Ga Ball pit will be located at the Lake Nebagamon baseball field on County Rd B in Lake Nebagamon. The Ga Ga Ball pit will be next to the playground equipment. Parents will be able to enjoy the games, while easily keeping an eye on their children.

After researching several design options, we selected a plan that uses specialized brackets designed specifically for Gaga Ball pits. This choice ensures that the structure will be safe, durable, and long-lasting.

The total cost of materials for this project is approximately \$875. These materials include:

- **TyCa Industries Ga Ga Pit kit with brackets, bolts, nuts, and washers:** On Amazon: [click here](#) Gaga Pit Brackets: DIY Design, USA Made, 11 Gauge (1/8 Powder Coated Steel.
- **Pressure-treated lumber:** To prevent damage from outdoor exposure.
Qty 45: 2"x6"x12'
- **Balls:** Large kick balls to be used in the pit

in)

We are fortunate to already have access to all the tools needed for construction, which helps to keep our overall costs lower. To fund this project, we are using fundraisers, donations, and troop funds.

We are reaching out to community members and organizations like yours to ask for support through donations. Any contribution, no matter the size, would greatly help us bring this project to life and create a fun, safe recreational space for kids.

Thank you for considering our request and for supporting our efforts to improve our community. If you have any questions or would like more information, please feel free to contact us.

We have already started building a ball storage bin. This will make sure the balls don't blow away or get misplaced. These materials were generously donated by Jeff Olson of Poplar and were assembled by us! (See photo)

Sincerely,

Aubree, Maddie, Aubrey, Harper and Zoe
Girl Scout Troop #4419
